Botanical Garden

The botanical garden is located in the grounds of the palace gardens. Here you can enjoy the diversity of nature every day of the year and admire an unrivalled world of plants. It is also an oasis of relaxation in the centre of Münster.

Many paths and sections barrier-free and at ground level

City centre buses operated by Stadtwerke Münster

Only low-floor buses run in Münster. There are raised kerbs at many bus stops to make boarding and alighting virtually step-free. All buses also have mechanical folding ramps that can be folded out if necessary. There is an extra space with impact protection for wheelchairs and walking frames on the bus. In most buses, this is accessible via the second door

www.stadtwerke-muenster.de

Passenger information systems

At central bus stops in the city centre, there are passenger information systems equipped with a voice announcement system. After pressing a button located on the pillars, an announcement is made as to when which line will reach the stop.

Acoustic traffic lights for the blind

Information on the locations of additional devices for the blind at signalling systems can be found here:

Safely over the cobbles

It belongs to Münster like the cathedral and the arcades: the rough cobblestones in the old town. The medieval streets have been preserved here. To ensure that this atmosphere can also be enjoyed from a wheelchair, there are special crossings in many places. A wheelchair sign on the pavement indicates that it is possible to cross the road without a jolt. (purple stripe / legend)
